New Reports from Dryden Authors:

Diebler, Corey and Mark Smith, *A Ground-Based Research Vehicle for Base Drag Studies at Subsonic Speeds*, NASA/TM-2002-210737, November 2002

Milestones in Dryden's History for the month of December:

December 3, 1990- Position of Dryden site manager redesignated as director in reorganization that strengthened Dryden's role as a national flight research installation, with Ken Szalai, chief of Dryden's Research Engineering Division, named to new position. Dryden personnel numbered 430.

December 22, 1992- Flights began with Dryden's CV-990 Landing Systems Research Aircraft (LSRA), equipped with a space shuttle landing gear fixture that later lead to increased orbiter

cross wind landing limits at the Kennedy Space Center, and aided in the decision to resurface the Kennedy runway.

The NASA Dryden Research Library gives Library Tours and Orientation. They will be twice a month on Friday afternoons and take 30 minutes to an hour. This is available for Dryden employees or staff that would like to know, more about the Research Library services. A tour of the library facilities will be given, with handouts about library services. There will be demonstrations on searching several databases accessible from the Research Library website, including AIAA, Science Direct, ASAP, DTRS, etc. You can bring information on topics you would like to search. Please call Barbara Rogers at ext. 3702 to schedule an appointment.
